PROFILE

Results-oriented Data QA Engineer with 3 years of experience in the U.S. healthcare domain. Skilled in healthcare data, SQL, and Python, with experience designing ETL test cases, performing source-to-target validations, and analyzing large datasets to ensure data accuracy and integrity.

ACADEMICS

Bachelor of Computer Science (BSc CS), Kathmandu University 2019 - 2024
Computer Science | CGPA: 3.81 Dhulikhel

Higher Secondary, Sainik Awasiya Mahavidyalaya 2017 - 2019
CGPA: 3.50 Bhaktapur

Secondary Education Examination (SEE), Sainik Awasiya Mahavidyalaya 2016
GPA: 3.70 Bhaktapur

PUBLICATIONS

Harnessing the Tweet Stream: Deep Learning for Natural Disaster Detection, IETE Kolkata Centre

(eds.), Machine Learning for Social Transformation. EAIT 2024. Lecture Notes in Networks and Systems, vol. 1131. Springer. https://doi.org/10.1007/978-981-97-7532-3_7.

PROFESSIONAL EXPERIENCE

Cedar Gate Technologies | Data QA Engineer Aug 2025 - Present
Sanepa, Lalitpur

- Mentor junior QA engineers in data validation, SQL, and quality assurance best practices.
- Collaborate with cross-functional teams to maintain data integrity and deliver reliable, scalable healthcare data solutions.
- Design and execute ETL test scenarios and test cases in Zephyr to ensure accurate source-to-target data validation.

Cedar Gate Technologies | Associate Data QA Engineer Apr 2024 - Aug 2025
Sanepa, Lalitpur

- Perform SQL-based data validation and prepare QA reports.
- Improve monthly data-scrubbing workflows and maintain root cause analysis (RCA) documentation.
- Support automation initiatives across QA processes.
- Help design and execute ETL test cases and data validation checks.
- Write SQL queries to verify source-to-target data and investigate discrepancies.
- Use Python and Excel to automate routine data validation and analysis.
- Work with AWS S3 and Amazon Redshift to validate healthcare datasets.

Cedar Gate Technologies | Data QA Intern Apr 2024 - Aug 2024
Sanepa, Lalitpur

- Develop familiarity with U.S. healthcare data standards and regulatory requirements.
- Validate healthcare datasets for accuracy, completeness, and consistency.
- Review mapping specifications and identify gaps in business requirements.

HONORS AND AWARDS

Hult Prize winner, 2022/23 - Kathmandu University
Idea Pitching winner at IT MEET 2023
Ideathon winner, Kathmandu University, 2023
Second place, National Cyber Olympiad Nepal, 2016
Second place, Knowledge Mastero Young Nepal Edition, 2022

CORE COMPETENCIES

- **Data Analysis:** Extracting, cleaning, transforming, and aggregating data using Redshift and PostgreSQL.
- **U.S. Healthcare:** CMS code sets (ICD-10, CPT-4, HCPCS, NDC, NPI) and HIPAA compliance.
- **Cloud and Big Data:** Hands-on experience with Amazon S3; familiarity with Hadoop for large-scale data processing.
- **Programming and Automation:** SQL and Python scripting for data processing and automation.
- **Collaboration:** Agile team player skilled at translating requirements into practical solutions.
- **Problem Solving:** Strong analytical, troubleshooting, and data integrity skills.
